October 20, 2010

Dear John,

This letter is written in support of your film project, Murder Through The Eyes of A Child. Having worked with you in the past and knowing all too well what our children have seen in their short lives, I fully support your endeavors and this project.

It is my understanding that you have already shot the film and are now looking for resources to edit the documentary professionally. This film has the potential to make a difference in the lives of so many of our youth for a brighter, safer and healthier future.

I believe with the right attention this film can be invaluable to our society. First of all, we need to change the way that we view our children who grow up underserved. If people saw the affects of mentoring programs from the perspective of the kids who grow up in violent neighborhoods, I believe funding for these programs would not be such an over looked expense. I speak to this with firsthand knowledge having worked with these kids for many years. Our young people deserve a chance to live in a world without fear.

This is what this film can do. I am pleased to offer my support in helping get this message out. People really need to understand what is going on with youth today and that we can make a difference if we open our eyes and work together for a better tomorrow for our kids.

Sincerely,

Renée B. Blanche  
Director of Development
