

To whom it concerns,

I am writing to you on behalf of "Murder through the Eyes of a Child". I work for the New Orleans Campaign to Stop Shootings and Killings (a replication of the CeaseFire Chicago model of violence prevention) as a community coordinator and I am the founder of United for Peace in New Orleans.

I have worked with John over the last year as an adviser. I have supplied information to him about people who I believe are important within the New Orleans Peace Movement. He has since thoroughly sought out these people and done a beautiful job interviewing these people.

From the clips that I have seen, this movie is very necessary for the New Orleans Peace Movement. I truly believe if the public became aware of the fascinating people who are within work for peace, the public would want to get more involved with helping bring Peace to New Orleans. Their stories are so painful, memorable and redemptive, they can move anybody to see that Peace is necessary if our city is to survive. These people are the story of our city and John captures it with empathy, beauty, passion and humor.

Please feel free to call me and talk more about my strong recommendation for funding this project.
Peace,

A handwritten signature in blue ink that reads "Charles Anderson". The signature is fluid and cursive, with the first name being larger and more prominent than the last name.

Charles Anderson
